

About Esri Malaysia

We are a multi-national organization specializing in enterprise software solution for large public sector customers, GLC and corporates in Malaysia. We expanded our business to Malaysia in 1983 and have since developed a loyal customer base leveraging on strong brand recognition, globally proven solution and industry expertise in Malaysia, South Asia and USA. We have largest market share and business growth is promising. Existing pool of resources can provide high quality consultancy services, project implementation and comprehensive customer support. However due to rapid growth we seek qualified and enthusiastic professionals with various skill sets and positive attitude to be part of our growth expansion.

Solution Consultant

Overview

The Solution Consultant (SC) supports sales productivity and deal flow by securing the “technical close” in complex solutions. The SC collaborates with sales, service delivery, and technical support resources to ensure proposed deals include technical solutions that accurately address customer needs, and are appropriately supported by key customer technical decision-makers.

SC will support Esri Malaysia Sales & Business team throughout the sales process including but not limited to, sales support, bid support, and technologies updates. This will includes the conduct of client demonstrations and solution designing using Esri technologies.

Reporting to the Solution Consulting Lead, the SC reports on a dotted line to the sales manager or business account manager responsible for the sales team supported.

| Key accountabilities | |
